

DESENHO TÉCNICO

AULA 5

LEITURA E INTERPRETAÇÃO DE DESENHOS

EXERCÍCIOS

**RESOLVER AS
SEGUINTE
FOLHAS DO
CADERNO DE
EXERCÍCIOS**

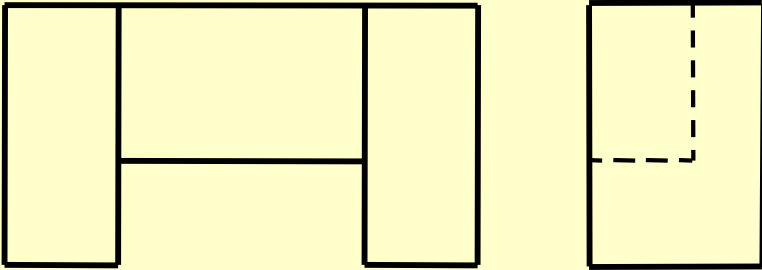

TC/TS – 13.1

TC/TS – 13.2

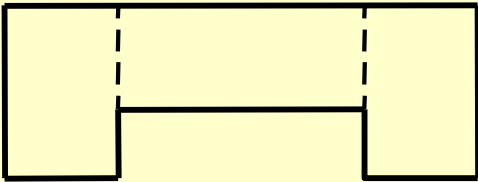

TC/TS – 14.1

TC/TS – 14.1

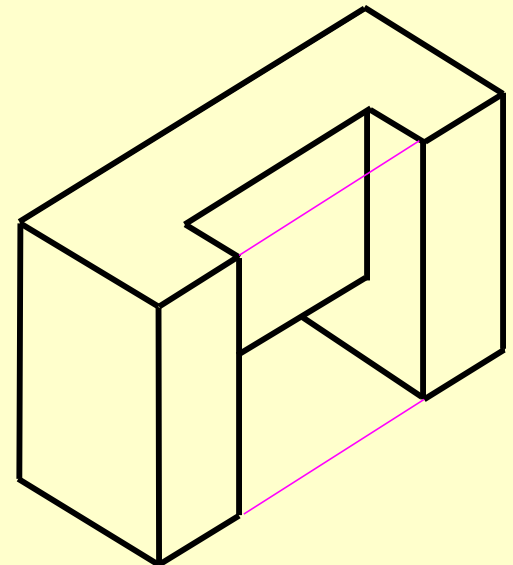

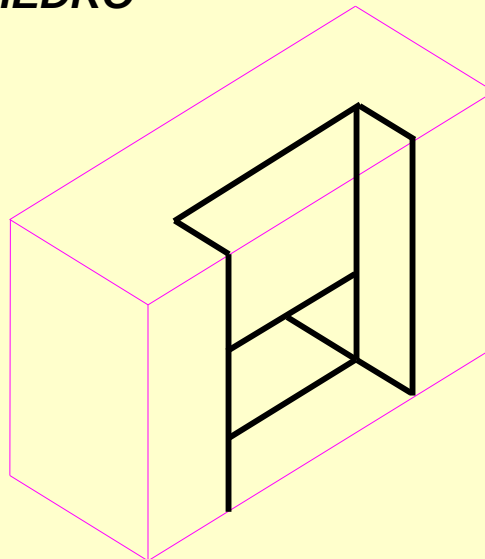

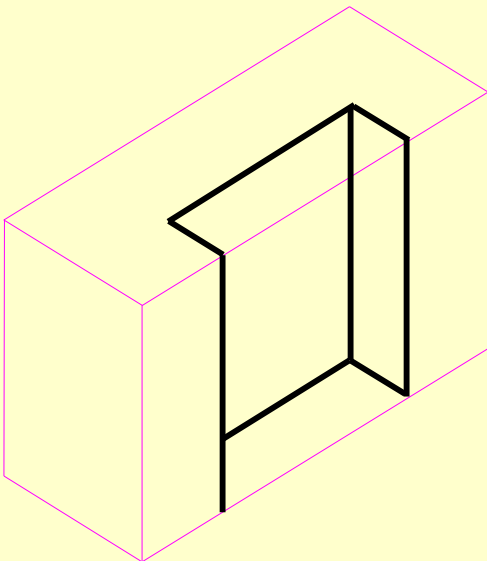

TC/TS 13.1 – Exercício 2

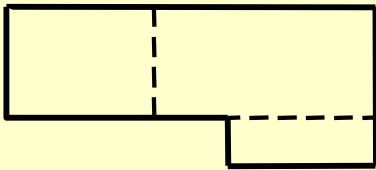

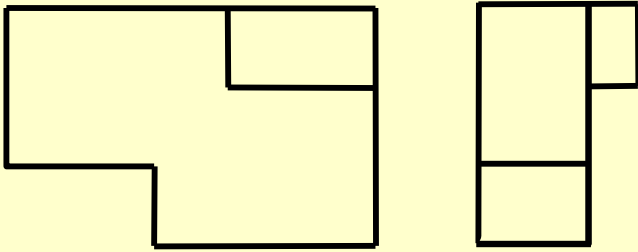

APAGANDO AS LINHAS DE CONSTRUÇÃO

1º DIEDRO

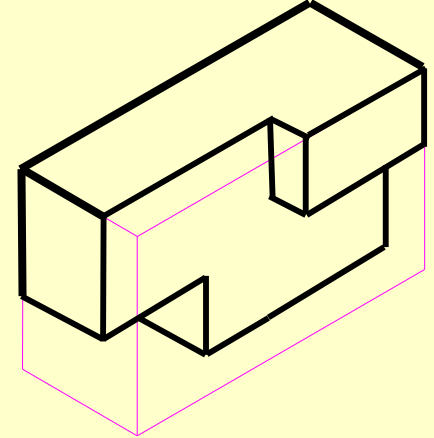

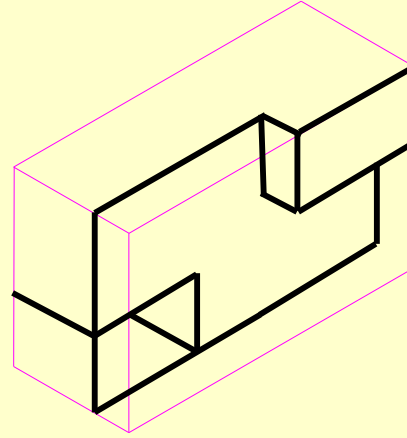

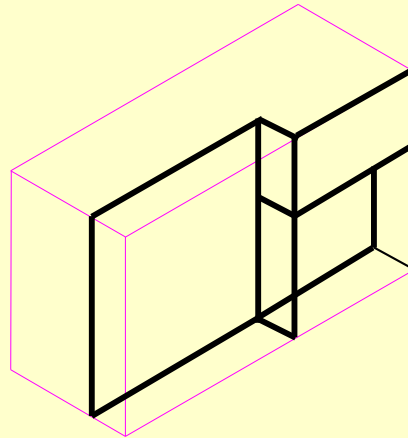

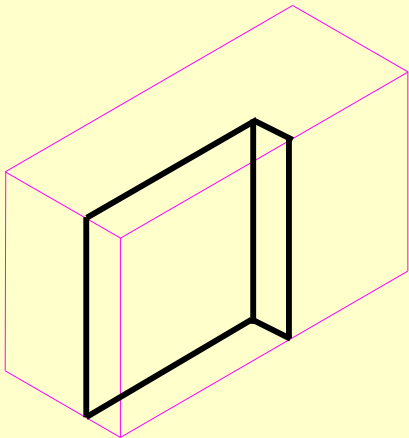

TC/TS 13.1 – Exercício 6

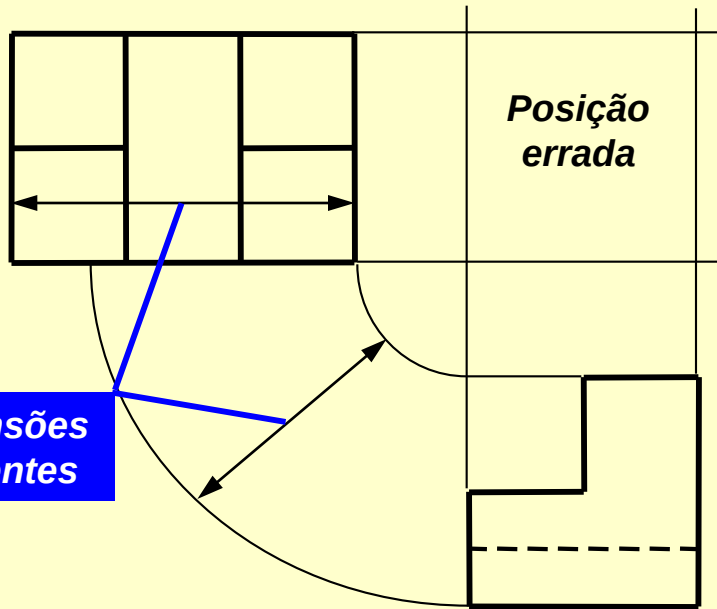

APAGANDO AS LINHAS DE CONSTRUÇÃO

1º DIEDRO

TC/TS 13.2 – Exercício 1

**AONDE DEVE SER DESENHADA
A TERCEIRA VISTA?**

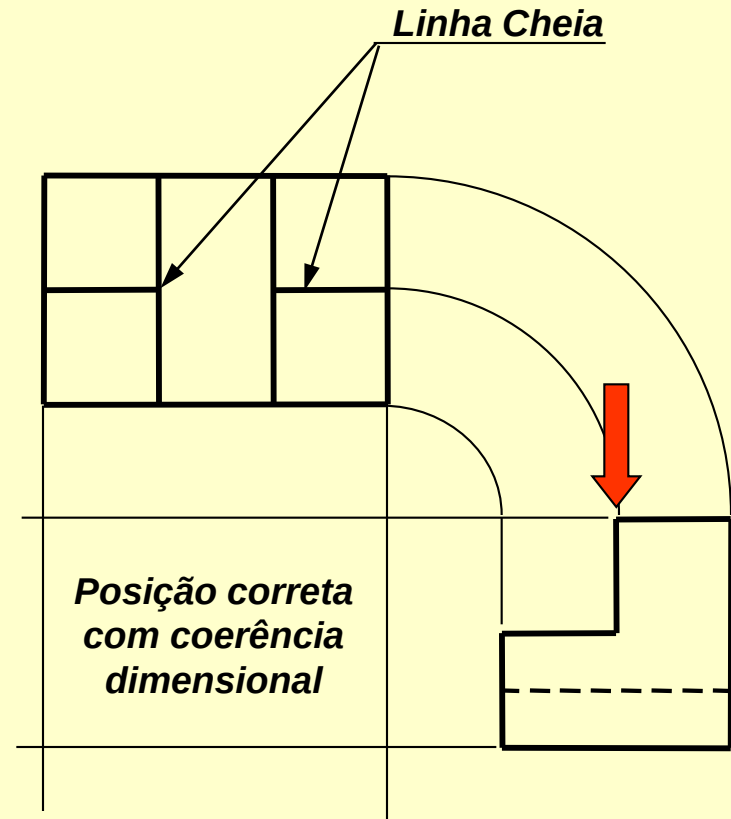

**Dimensões
diferentes**

QUAL É O DIEDRO?

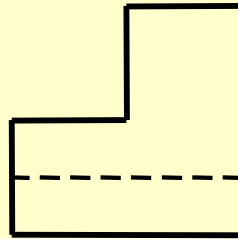

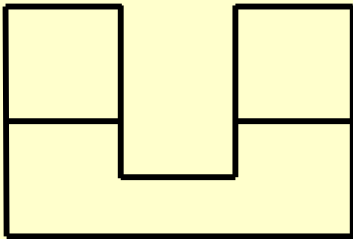

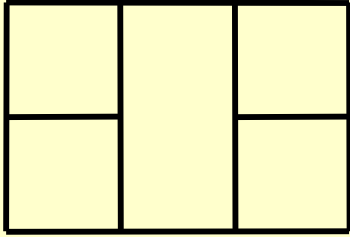

Olhou por cima e desenhou em cima

CONCLUSÃO

3ºDiedro

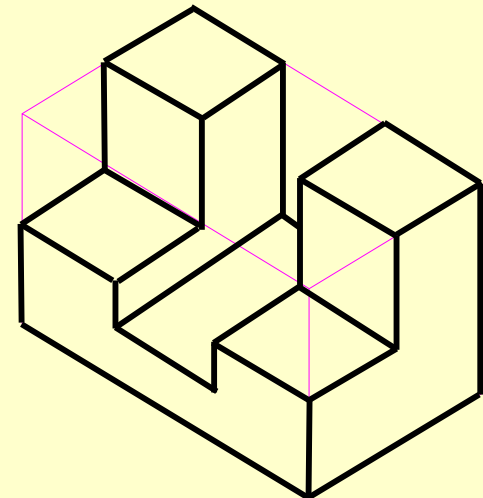

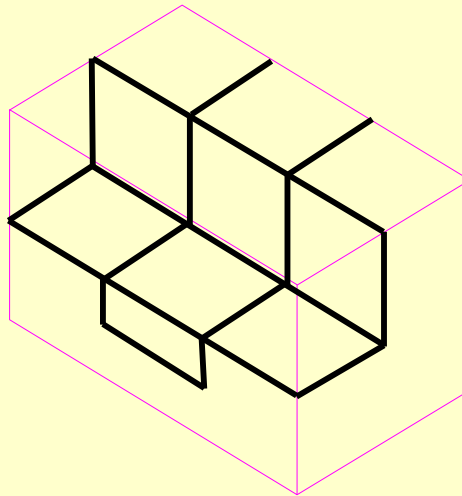

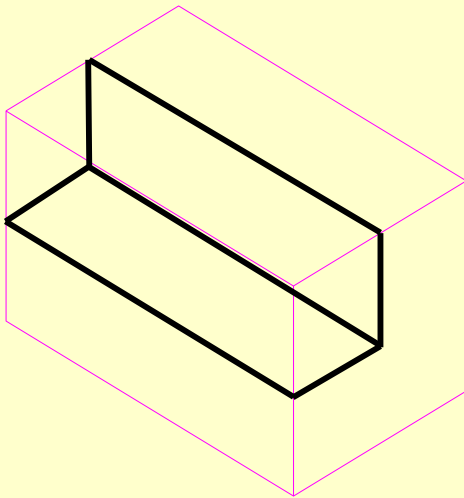

TC/TS 13.2 – Exercício 1

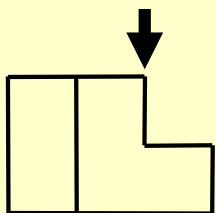

APAGANDO AS LINHAS DE CONSTRUÇÃO

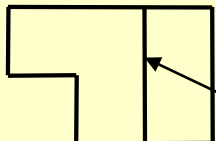

3º DIEDRO

TC/TS 14.1 – Exercício 1

Olhando por cima, a aresta indicada aparece representada por linha cheia na vista que está em baixo.

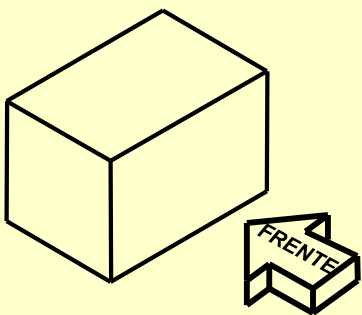

1º Diedro

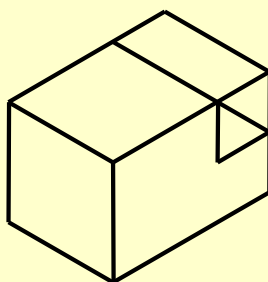

OLHOU DE UM LADO DESENHOU DO OUTRO

Considerando que se trata de uma forma espacial simples, vamos tentar a sua visualização sem o auxílio dos métodos mostrados para leitura do desenho.

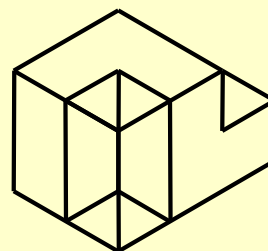

LEITURA ATRAVÉS DO ESBOÇO EM PERSPECTIVA

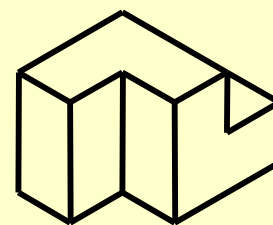

Desenhar o paralelepípedo de referência

Desenhar o corte que aparece na vista de frente

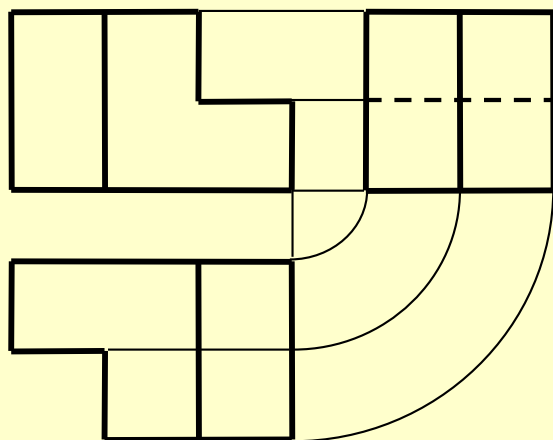

Desenhar o corte que aparece na vista superior

Reforçar o desenho da perspectiva e desenhar a vista lateral esquerda

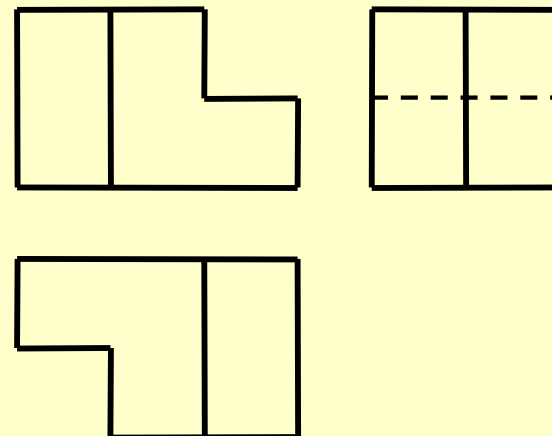

TC/TS 14 – Exercício 1

Desenhando a vista lateral esquerda

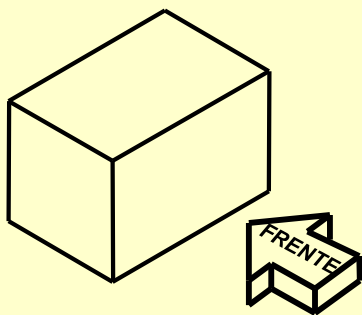

1º Diedro

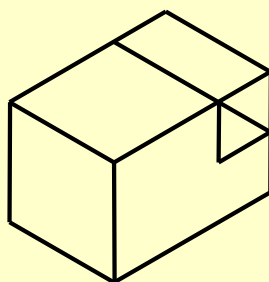

Apagando as linhas de construção

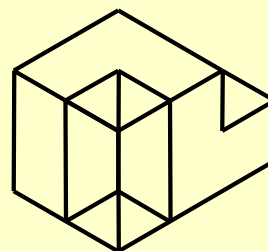

LEITURA ATRAVÉS DO ESBOÇO EM PERSPECTIVA

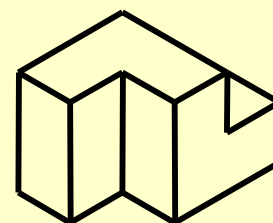

Desenhar o paralelepípedo de referência

Desenhar o corte que aparece na vista de frente

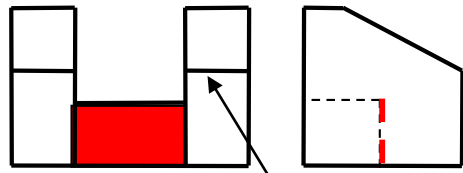

Desenhar o corte que aparece na vista superior

Reforçar o desenho da perspectiva e desenhar a vista lateral esquerda

TC/TS 14.1 – Exercício 6

Olhando pela direita, a aresta indicada aparece representada por linha cheia na vista que está à esquerda.

1º Diedro

OLHOU DE UM LADO DESENHOU DO OUTRO

LINHA CHEIA

DESENHAR A VISTA SUPERIOR

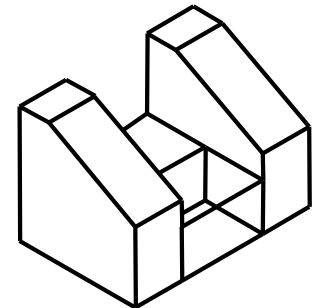

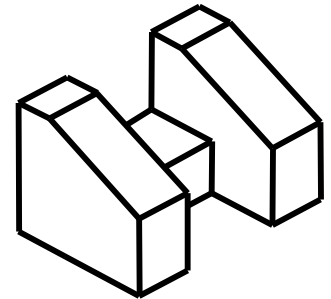

Desenhar o paralelepípedo de referência

Apagar as linhas excedentes e reforçar o desenho

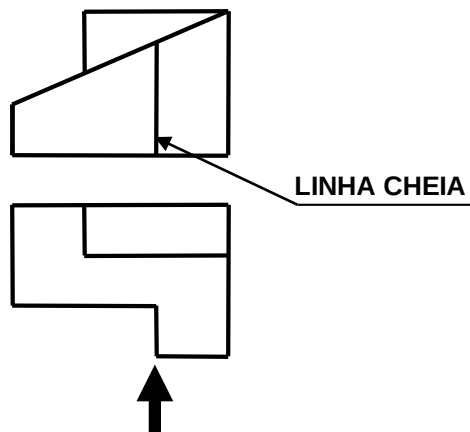

Desenhar o corte que aparece na vista de frente

Cortar para dar visibilidade no plano que aparece na vista de frente

Desenhar o corte que aparece na vista lateral

TC/TS 14.1 – Exercício 7

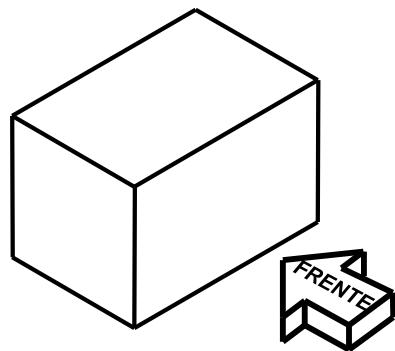

Olhando por baixo, a aresta indicada aparece representada por linha cheia na vista que está em cima.

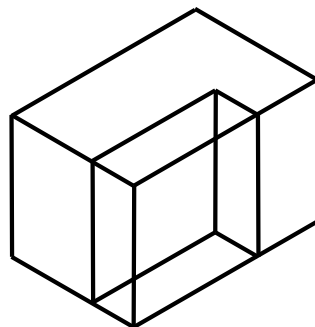

1º Diedro

OLHOU DE UM LADO DESENHOU DO OUTRO

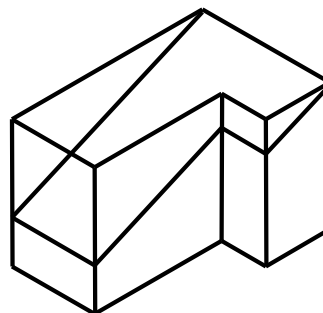

LEITURA ATRAVÉS DO ESBOÇO EM PERSPECTIVA

Desenhar o paralelepípedo de referência

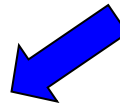

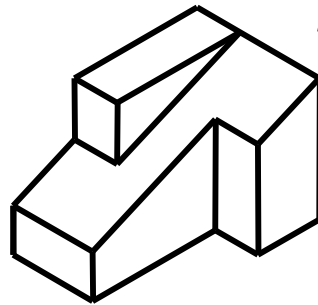

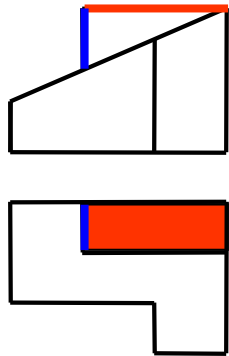

Desenhar o corte que aparece na vista superior

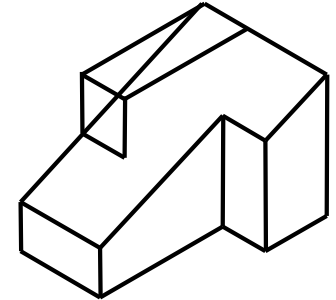

Desenhar o corte inclinado que aparece na vista de frente

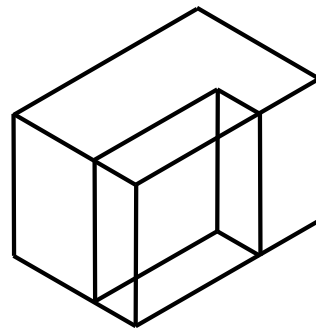

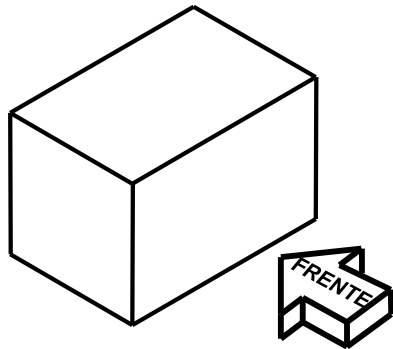

TC/TS 14.1 – Exercício 7

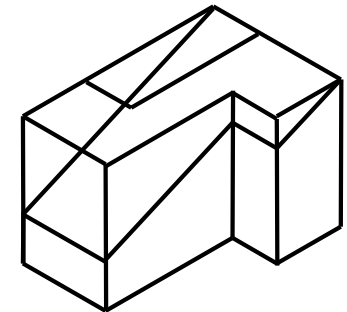

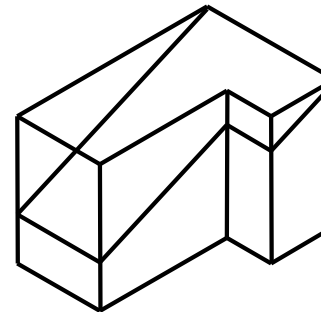

Desenhar a linha que fecha o plano triangular, apagar a linha excedente, reforçar as linhas da perspectiva final e fazer a vista lateral esquerda

LEITURA ATRAVÉS DO ESBOÇO EM PERSPECTIVA

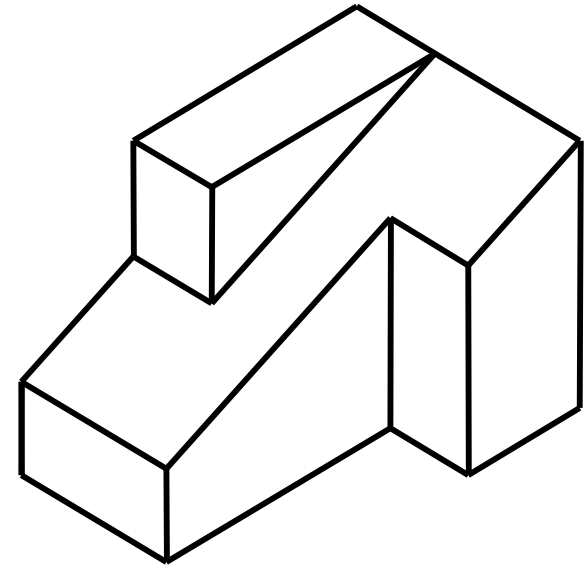

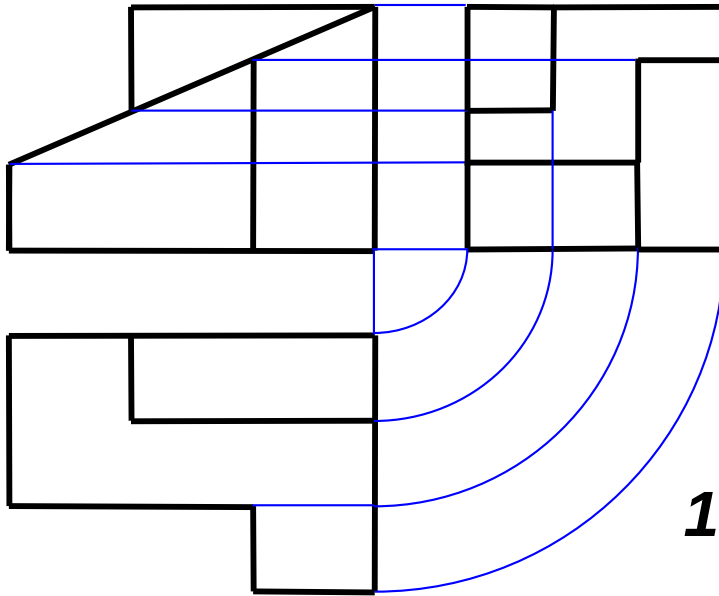

Desenhar o plano perpendicular ao retangular que aparece na vista de frente

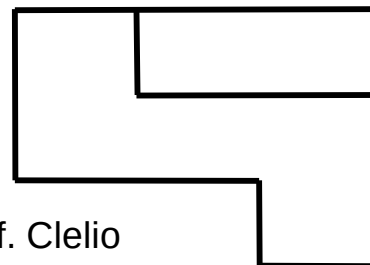

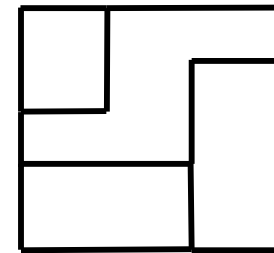

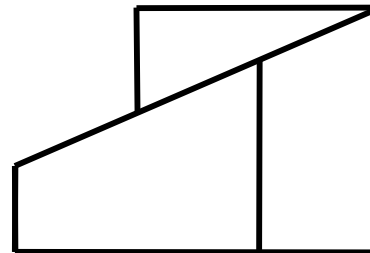

Desenhar o plano retangular que aparece na vista superior

TC/TS 14.1 – Exercício 7

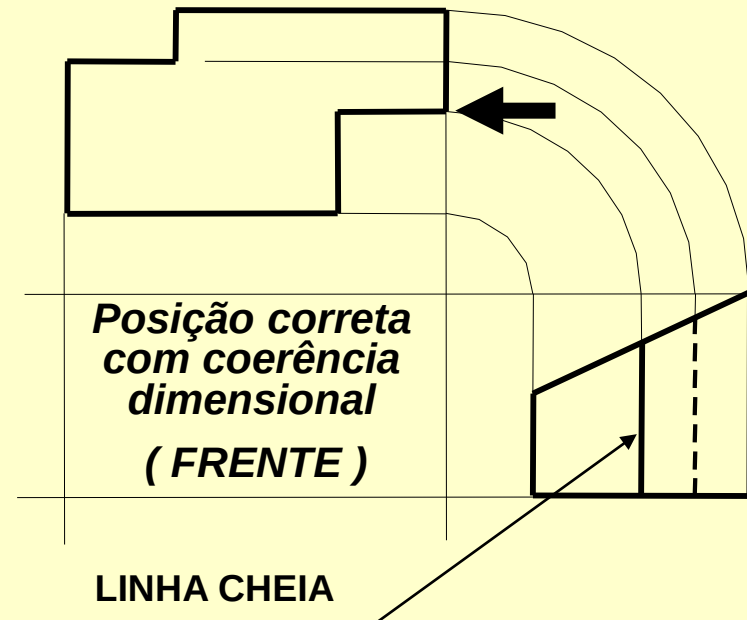

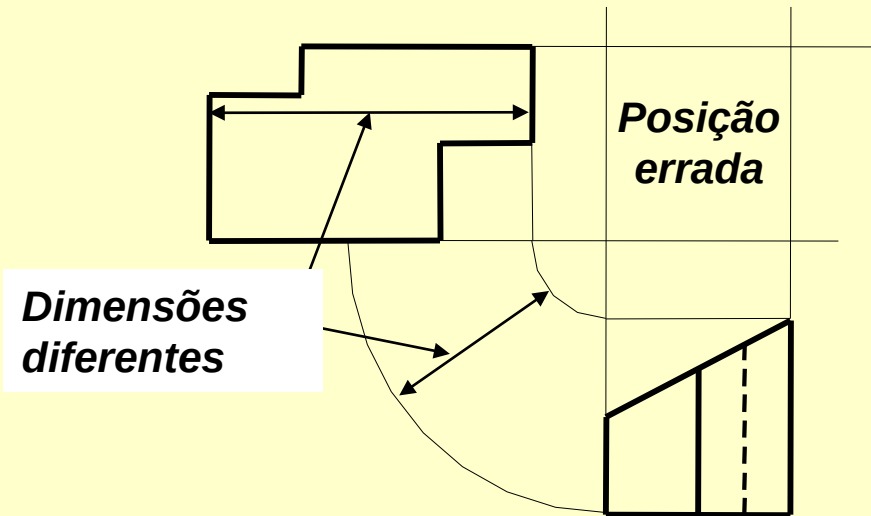

1º Diedro

**APAGANDO AS LINHAS
DE CONSTRUÇÃO**

TC/TS 14.2 – Exercício 3

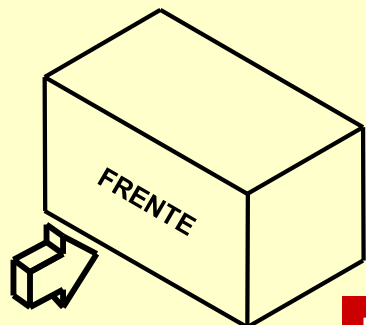

Aonde deve ser desenhada a terceira vista?

3º DIEDRO

OLHOU E DESENHOU DO MESMO LADO

Olhando pela direita, a aresta indicada aparece representada por linha cheia na vista que está à direita.

TC/TS 14.2 – Exercício 3

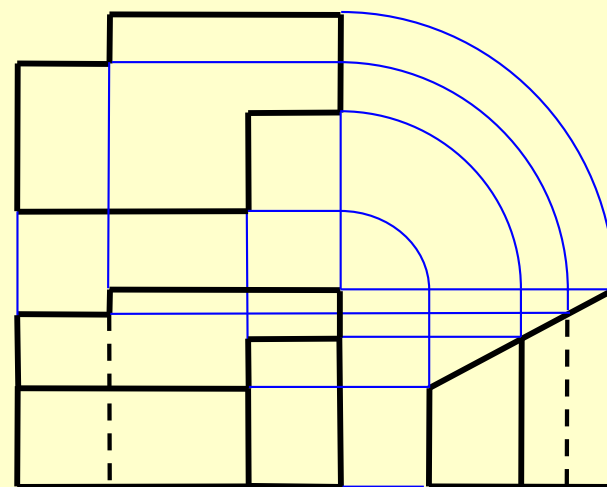

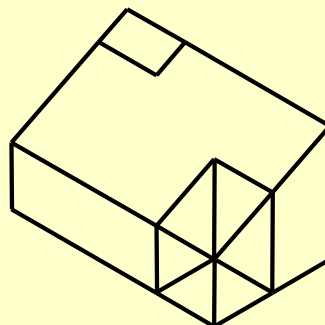

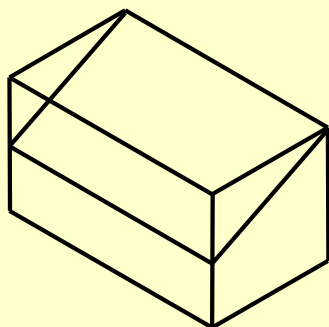

Desenhar o paralelepípedo de referência

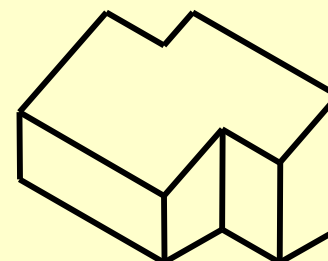

POSICIONAR O PARALELEPÍPEDO DE MODO QUE APAREÇA A VISTA LATERAL DIREITA

Fazer o corte inclinado mostrado na vista lateral

Fazer os cortes que aparecem na vista superior

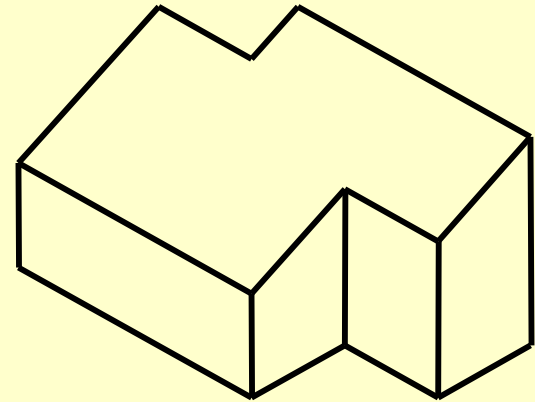

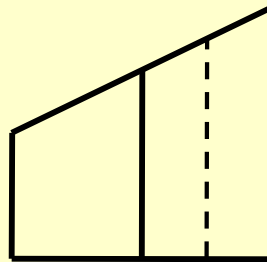

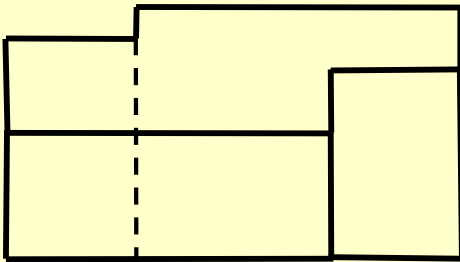

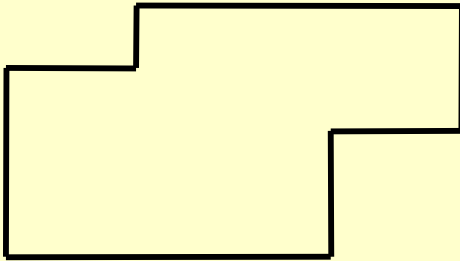

3º DIEDRO

APAGAR E REFORÇAR

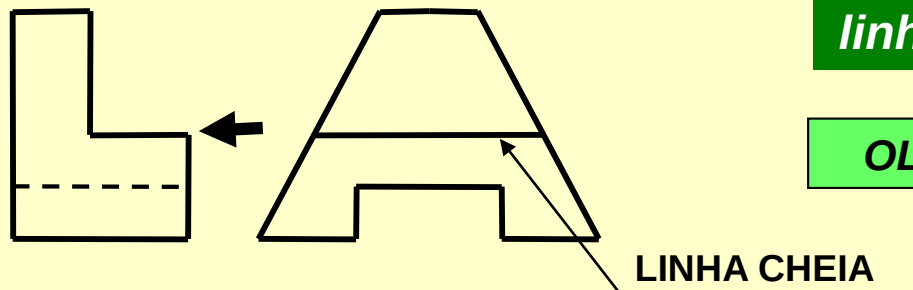

TC/TS 14.2 – Exercício 3

APAGANDO AS LINHAS DE CONSTRUÇÃO

3° DIEDRO

TC/TS 14.2 – Exercício 4

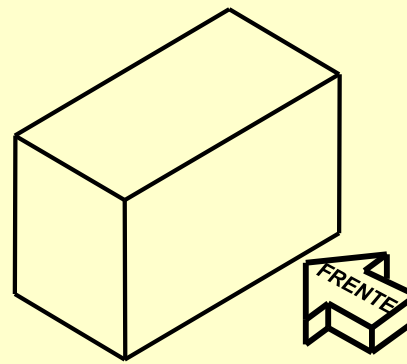

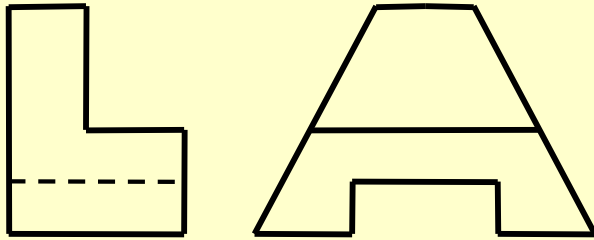

Olhando pela direita, a aresta indicada aparece representada por linha cheia na vista que está à direita.

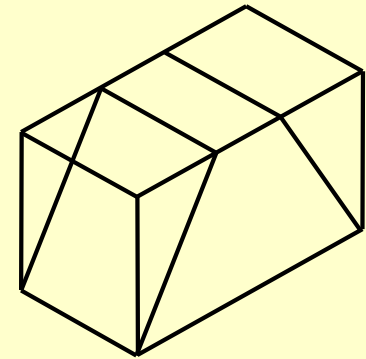

OLHOU E DESENHOU DO MESMO LADO

3º DIEDRO

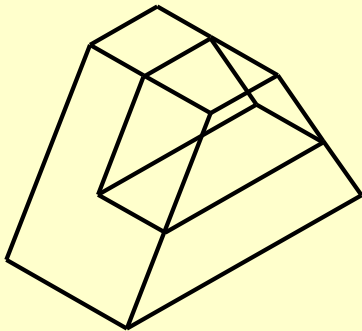

TC/TS 14.2 – Exercício 4

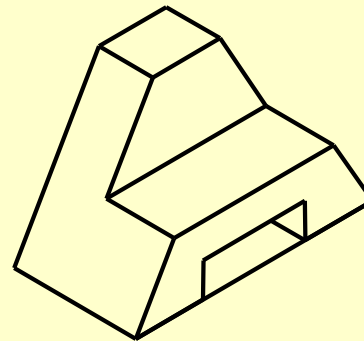

**Desenhar o
paralelepípedo
de referência**

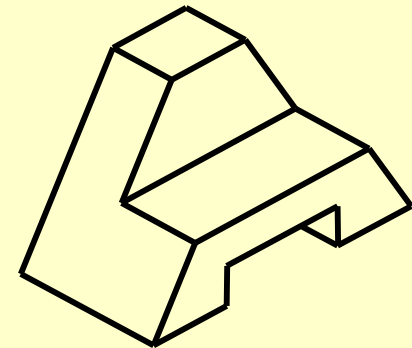

**Desenhar os cortes
inclinados que aparecem
na vista de frente**

**Desenhar o corte
que aparece na vista
lateral esquerda**

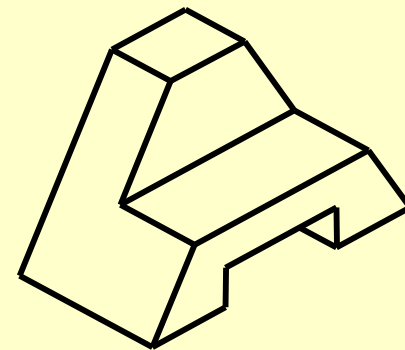

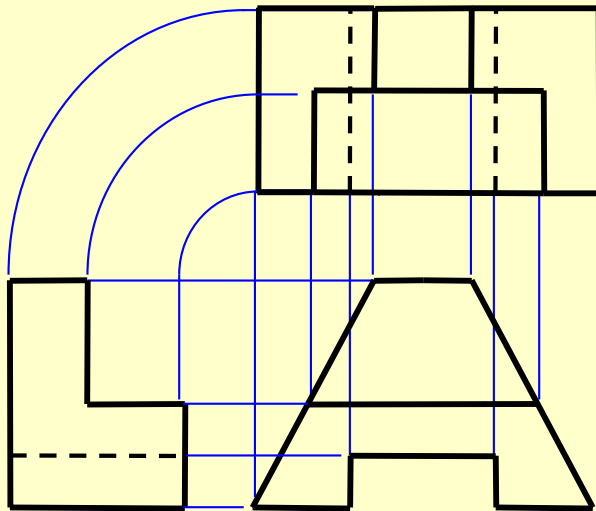

**Desenhar o corte
que aparece na
vista de frente**

Apagar e reforçar

TC/TS 14.2 – Exercício 4

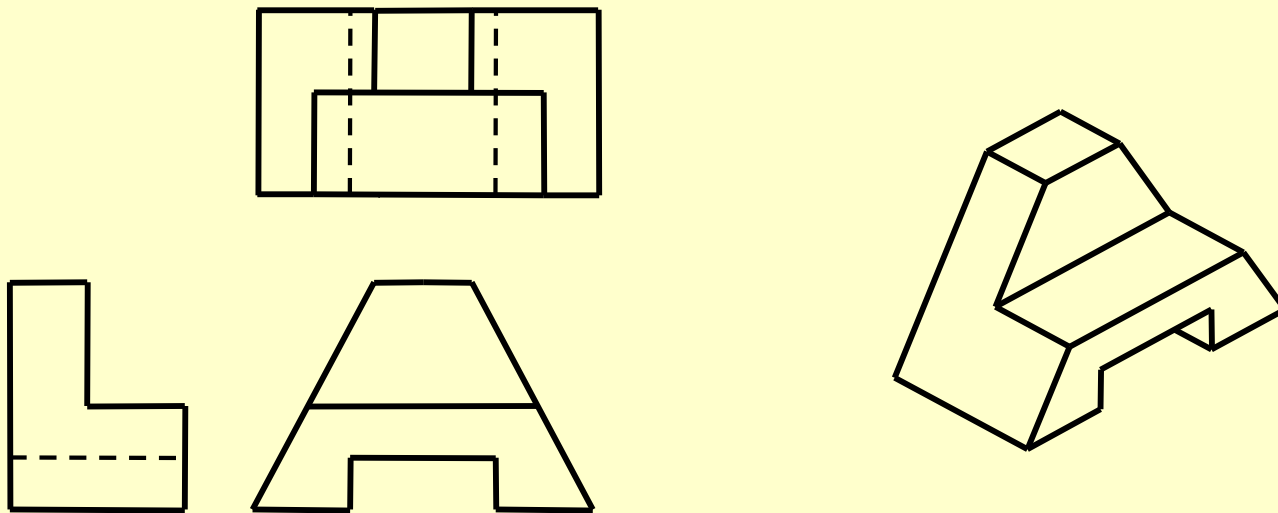

FAZENDO A VISTA SUPERIOR

3º DIEDRO

TC/TS 14.2 – Exercício 4

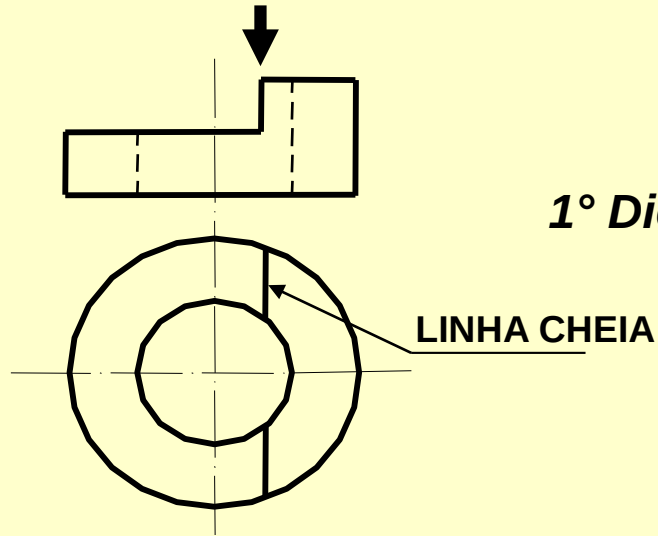

APAGANDO AS LINHAS DE CONSTRUÇÃO

3° DIEDRO

TC/TS 14.2 – Exercício 6

Olhando por cima, a aresta indicada aparece representada por linha cheia na vista que está em baixo.

**OLHOU DE UM LADO
DESENHOU DO OUTRO**
